**Subject:** I don't Understand??

You went through all this trouble, time, and expense to get "Microsoft" in and out of court and you accomplished nothing even though you've won. Got to Love our Legal System and the money mongering people associated with it.

Could you please explain to me why all this money was wasted and what the "Nation" gained out it? This and the OJ case are the biggest jokes of this Nations Judicial System so far in my opinion. I think you'll have a hard time beating this one, but I'm sure you'll try.
